EDUCATION

Bachelor Of Computer Science

University of South Asia

(2017-2021)

Intermediate in Computer Science (ICS)

Punjab Group of Colleges

(2014 – 2016)

Matriculation (Computer Science)

MQ Foundation High School

(2011 - 2013)

PROJECTS

- **Global Software Consulting** (Next Js, MUI)
- **Digital Wave Solution** (Next Js, MUI)
- **Company Needs** (Next Js, Bootstrap)
- **Pedlar Store** (Next Js, MUI)
- **Ask Cyborg** (Next Js, Tailwind Css)
- **Obenan** (Next Js, MUI)
- **Urdu Live News** (HTML, CSS)
- **Udress** (HTML, CSS)

SKILLS

- Next.JS
- Strapi
- React.JS
- Material UI
- TypeScript
- HTML
- CSS
- GitHub
- Jira Software
- Bit Bucket
- JavaScript
- Bootstrap
- Tailwind css

LANGUAGES

English, Urdu, Punjabi

VISA STATUS

Valid Visa (2 Years)

SUMMARY

Experienced and highly skilled React/Next.js Developer with a robust background in developing dynamic, user-facing functionalities using modern web technologies. Proficient in translating intricate designs and wireframes into high-quality, efficient code. Extensive experience in utilizing Agile methodologies, such as Scrum, to manage project workflows and ensure timely delivery of deliverables. Demonstrated ability to craft reusable components and seamlessly integrate front-end libraries to enhance project efficiency. Adept at mentoring junior developers, providing guidance, and fostering professional growth. Committed to upholding industry best practices and producing clean, well-documented code. Seeking to leverage my comprehensive technical skills, strong problem-solving abilities, and dedication to contribute effectively to a progressive and dynamic development team, driving business success and advancing my career trajectory.

WORK EXPERIENCE

Sr. React JS Developer

Global Software Consulting (Pakistan)   10/2021 -02/2024

- Spearheaded the development of new user-facing functionalities using React.js and Next.js, effectively interfacing with GraphQL and REST APIs.
- Crafted reusable components and integrated front-end libraries to enhance project efficiency and scalability.
- Translated intricate designs and wireframes into high-quality, maintainable code, ensuring optimal performance and fidelity.
- Engaged in Agile development methodologies, including Scrum, to manage project tasks and deliverables with precision.
- Mentored junior developers by providing knowledge transfer, guidance, and fostering their professional growth and development.
- Maintained coding integrity by adhering to industry best practices and standards, producing clean, well-documented code.
- Conducted code reviews and provided constructive feedback to improve code quality and team collaboration.

ReactJS Developer

ArhamSoft (Pakistan)   05/2020 - 09/2021

- Communicated effectively within the development team by participating in stand-up meetings and code reviews.
- Contributed to the development of smaller, scoped tasks to build coding skills and confidence incrementally.
- Received mentorship and constructive feedback from senior developers to accelerate learning and professional growth.
- Took ownership of individual projects or tasks under supervision, showcasing progress and accomplishments.
- Actively pursued opportunities to learn new technologies and tools through self-study and guided learning resources.
- Demonstrated a proactive attitude and willingness to learn from mistakes, adapting quickly to feedback and incorporating lessons into future work.

Intern ReactJS Developer

TechnoCares (Pakistan)   08/2019 - 04/2020

- Developed a solid understanding of HTML5 and CSS3, including semantic markup, responsive design principles, and familiarity with CSS preprocessors like Sass or LESS.
- Enhanced core JavaScript concepts such as variables, data types, loops, conditionals, and functions, with a strong grasp of ES6 features like arrow functions and template literals.
- Learned responsive web design techniques using media queries and frameworks such as Bootstrap and Flexbox, ensuring websites adapt to various screen sizes.
- Explored popular front-end frameworks and libraries like React to broaden skill set and enhance versatility as a developer.
- Implemented best practices for web performance optimization, including code splitting, lazy loading, and caching strategies.
